

# Journeys to Funding

30 May 2023 | 11:30-13:00 | [Booking Link](#)

**Dr Fergus Cullen** is a Reader in Galaxy Evolution at the University of Edinburgh; his research focuses on finding and characterising galaxies in the early Universe. Fergus received his PhD from Edinburgh in 2015 and worked as a post-doctoral researcher between 2015-2021. In 2021 Fergus was awarded an ERC Starting Grant to study the chemical evolution of distant galaxies. The grant funding (converted to a UKRI Frontier Research Guarantee grant) began in September 2022 and he is now in the process of building his own research group at the Institute for Astronomy. Twitter: @FergusLPCullen.

**Dr Annemarie Docherty** is an academic critical care consultant in the Royal Infirmary Edinburgh, and holds a Stage 1 Wellcome Clinical Research Career Development Fellowship. During 2020-2023 she has had the opportunity to work with national collaborations (ISARIC4C, EAVE-II, PHOSP-COVID, HEAL-COVID) to respond to the challenges raised by the COVID-19 pandemic. She is passionate about efficient trial design and the integration of research into clinical practice to improve outcomes for critically ill patients. Twitter: @abdocherty79.

**Dr Sandy Hetherington** studied an MSci in Geology at the University of Bristol and became fascinated by the evolution of land plants. In 2012 he moved to the Department of Plant Sciences at the University of Oxford to undertake his DPhil with Prof Liam Dolan on the evolution of roots. He remained in Oxford, first as a postdoctoral researcher (2017) and then a Junior Research Fellow at Magdalen College (2017-2020). In October 2020 he moved to the Institute of Molecular Plant Sciences at the University of Edinburgh to establish his research group supported by a UKRI Future Leaders Fellowship. Twitter: @Sandy\_Heth & @MPEG\_Edinburgh.

**Michelle Keown** is Professor of Pacific and Postcolonial Literature at the University of Edinburgh. She is author/editor of various books focused on imperialism and indigeneity in the Pacific, most recently *Anglo-American Imperialism and the Pacific* (2018). Between 2017 and 2020, she led a Global Challenges Research Fund (UK) project focused on the legacies of US nuclear testing in the Marshall Islands (more [here](#)). She is currently Co-PI on a major 3-year project that aims to decolonize Robert Louis Stevenson's Pacific fiction through graphic adaptation, arts education, and community engagement, funded by the Arts and Humanities Research Council. She serves on the AHRC Peer Review College and has reviewed funding applications for the Wellcome Trust, Leverhulme Trust, and other international organisations.
